

GPS Locations by Month for BirdID: 8174\_2022

The figure is a scatter plot showing the number of cases over time. The x-axis is labeled 'Date' and has major ticks for Mar 15, Apr 01, Apr 15, and May 01. The y-axis represents the number of cases, ranging from 0 to 100. The plot is divided into two sections: blue dots for cases from March 1 to April 1, and green dots for cases from April 1 to May 1. The blue section shows a peak in cases around March 10, followed by a decline and then a sharp increase starting around March 20. The green section shows a continued increase in cases, peaking around April 15, and then a decline towards May 1.
