

GPS Locations by Month for BirdID: 8764_2023

A scatter plot showing the relationship between the number of children and the number of books read. The x-axis is labeled 'Number of children' and ranges from 0 to 10. The y-axis is labeled 'Number of books read' and ranges from 0 to 10. The data points are red circles, showing a positive correlation. The points are clustered at x=0, 1, 2, 3, 4, 5, 6, 7, and 8. The number of books read generally increases with the number of children, with some outliers.

● 2

The scatter plot displays the relationship between the number of days since the start of the outbreak (X-axis) and the number of cases (Y-axis). The X-axis ranges from 0 to 100, and the Y-axis ranges from 0 to 100. The data points are red dots, showing a clear upward trend, indicating that the number of cases increases over time.
