

GPS Locations by Month for BirdID: 4663_2022

Latitude Over Time for BirdID: 4663_2022

The scatter plot displays the relationship between 'number' (x-axis) and 'count' (y-axis). The data points are colored blue and green, forming a bell-shaped distribution. The blue points are concentrated in the middle range of 'number' values, while the green points are concentrated at the higher end. The plot includes a light gray grid.
